

## BUTTON PUNCH SNAP LOCK MACHINE Model BPSL 20

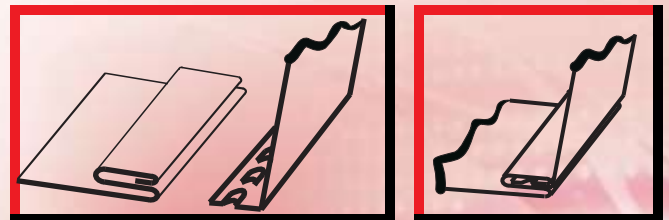

Used for joining sheet metal at right angles on straight runs. This is a more sophisticated joint than the Pittsburgh lock, requiring less labour. The male section snaps tightly into the female with an almost unbreakable joint.

When used in conjunction with the double headed flanging machine, this makes possible the forming of round bends. The machine is capable of forming a maximum of 20 swg (1.00 mm).

### SPECIFICATIONS

Length	1,650 mm
Width	615 mm
Height	1,000 mm
Weight	Approx. 275 kg
Power (3 ph/ 415 V/50Hz)	2 HP (1.5kw)
