

## **FLAT 'S' CLEAT MACHINE**

### **Model FSC-20**

Flat 'S' Cleat is used in light commercial and industrial applications and predominantly in residential heating and ventilating installations.

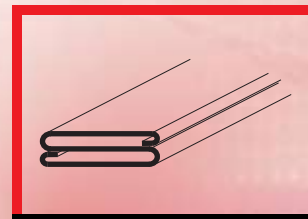

It is quick and easy to install and gives a rigid box - frame construction when used with Drive Cleat on the narrow sides.

The Flat 'S' is a shape roll formed on a Rollforming machine using sheet of 22 gauge and lighter. This design results in a reinforced hem with ample pocket for joining ducts together top and bottom
